Franklin Planning and Zoning Commission

From: Ms. Carly Holzschuh, AICP, Town Planner, Wetlands Enforcement  
Official/SCCOG

Subject: Erosion Control Measures on Rt. 32

On July 7, 2020, Mr. Charles Grant notified me that the silt fences acting as Erosion and Sediment (E&S) Controls along the construction site of the utilities expansion along Route 32 in Franklin were failing. E&S controls are crucial to keeping disturbed soil on the construction site and preventing runoff onto neighboring property or into waterways during storms.

I drove north and south on Route 32 through the construction area around 11 AM, and the silt fences were down in numerous locations. E&S controls along the construction site need to be repaired and maintained immediately to protect neighboring properties ahead of storms with possible rainfall over half an inch this weekend.

Please contact me when the E&S controls have been repaired. If you have any questions or concerns I can be reached at (860) 889-2324.
