Mr. Matthew D. Maynard, P.E.
Towne Engineering, Inc.
P.O. Box 162
South Windham, CT 06266

Dear Mr. Maynard:

Subject: Murphy Road Widening & Intersection Improvements
Route 87
Town of Franklin

This office has completed our review of the submitted plans entitled, "Murphy Road Widening & Intersection Improvements – Route 87 – Franklin, Connecticut" dated January 25, 2019, and last revised March 23, 2020. A final determination has been made and we find the proposal acceptable with two further comments at this time.

1. If the Town of Franklin chooses to submit the permit application in their name then the bond requirement and application fee will be waived. Applications received from parties other than the Town of Franklin for this project will need to adhere to all the requirements listed below.
2. A copy of the recorded Drainage Right of Way deed will need to be provided to this office prior to the issuance of an Encroachment Permit.

As regulated by Connecticut General Statute 13b-17, no work is to commence within the State right of way without first obtaining a DOT encroachment permit. In order to obtain the required encroachment permit, the following documents must be provided:

- A completed encroachment permit application (State Form PMT-1 Rev. 5/91).
- A Bond on State Form CLA-5 in the amount of \$10,000 in the owner or developer's name.
- Proof of minimum insurance requirements (General Liability of \$1,000,000 and Aggregate of \$2,000,000). Insurance may be carried by the contractor.
- A check or money order in the amount of \$150 payable to "Treasurer – State of Connecticut."

These forms, along with additional information, may be obtained at www.ct.gov/dot.

If you have any questions in regard to this matter, please contact Mr. Daniel McBride of this office at (860) 823-3114, or by email at Daniel.McBride@ct.gov.

Sincerely,

Andrew S. Morrill
Special Services Section Manager
